

Professor Poopenshtinken's
MAGICAL MATHS

Magical Maths...

...is returning to Court Lane!

Get ready for a club packed full of mind boggling tricks, games and puzzles. That's right - **Professor Poopenshtinken and friends** are bringing mathematical fun to your school! Our club runs for 6 weeks starting **Thursday 4th June** straight after school until 4:15pm. The club is open for Year 1 and Year 2. Joining the club will also give your child access to our Magical Maths Online platform and their very own Magical Maths pencil and folder to collect their tricks, activities and stickers from the club. The club costs £49 and can be split into three payments using Paypal Pay in 3.

Children will wear hats and wands for fast paced **maths duels**, stretch their legs on Mathletes week and solve countless puzzles. The newest Maths Geniuses will be able to **multiply huge numbers** in their heads, **read minds** and lots more... The club is specially designed to **boost your child's confidence and engagement in maths** while having lots of fun, and we will support or stretch the children as needed!

The children will have an exciting visit from **Professor Poopenshtinken** on 27th April to tell them more!

Spread the cost of booking with Paypal Pay in 3 on our website.

Spaces are limited, so don't miss out!

You can now book on our website or by phone.
 Bookings close 20th May (or when fully booked).
